it is very common for seniors to juggle 12 or more different medications at once, said Rodriguez-Gregg.

Regardless, I tell them that I try to get home often. I aim for four times a year, but I would like to go more.

I get so angry at my inability to function some days, or weeks, at a time.

We’re a gaggle of volunteers and starting a brand new scheme in our community.

Auditors examined 12 different controlled substances at the hospital, but their report did not identify the substances by name, instead referring to them by assigned numbers.
